

AMENDMENTS TO THE SPECIFICATION

Amend paragraph [0036] as follows:

[0036] In the vehicle 1, as shown in Fig. 2, a lid 44C of the trunk 20C can open upward, while lids 44L and 44R of the side trunks 20L and 20R can open sideways. The trunks 20C, 20L, and 20R are locked and unlocked by inserting an engine key into a key cylinder 40 (see Fig. 3) provided in the trunk 20C and by turning the engine key. In this embodiment, locking and unlocking of the trunks 20C, 20L, and 20R can also be done by a radio type remote controller. A controller 100 having incorporated therein a radio signal receiving function, as well as an actuator for locking and unlocking and a sensor, are mounted on the vehicle.
